RStudio and R Markdown

-

Question: 1

As part of this question, I have loaded the required packages and added instructions for table of contents etc in the YAML header.

```
# Load the required packages
library(tidyverse)
library(mdsr)
library(nycflights13)
```

The tidyverse packages

-

Question: 1

Plotting - **ggplot2**
 Data munging/wrangling - **dplyr** and **tidyr**
 Reshaping (speading and gathering) data - **tidyr**
 Importing/exporting data - **readr**

-

Question: 2

Plotting - **ggplot()** and **aes()**
 Data munging/wrangling - **select()** and **filter()**
 Reshaping (speading and gathering) data - **separate()** and **extract()**
 Importing/exporting data - **read_csv()** and **read_delim()**

R Basics

-

Question: 1

```
My_data.name___is.too00ooLong <- c( 1 , 2 , 3 )
```

Answer: Just with one change (removal of '!'), the code works.

-

Question: 2

```
# this is a character vector
my_string <- c('has', 'an', 'error', 'in', 'it')
my_string

## [1] "has"   "an"    "error" "in"    "it"
```

-

Question: 3

```
my_vector <- c(1, 2, '3', '4', 5)
my_vector
```

```
## [1] "1" "2" "3" "4" "5"
```

Answer: This is a numeric vector and with or without the single or double quotes, vector takes values.

Data import/export

Question: 1

Question: 2

Visualization

Question: 1

Question: 2

Question: 3

Data munging and wrangling
